

MFL

Pupil Voice

Year 2

I liked finding out about Bastille Day in assembly. The king and noble men were mean. It was nice that they now have a republic. I like their flag. **Millie**

Year 3

I like learning the numbers and colours. The games we play are fun and help me to learn the words. **Elysia**

Year 4

I can count to 60 really quickly. I am a bit slower at working out the numbers but we practise each week so I am getting better. **Amelia**

I love the active games where we find the matching words and say the words to a partner. **Daniel**

Year 5

I have learnt about the French Cities and some things the French like to eat. **Mollie**

I like the animations in Rigolo as it makes it easier to copy the vocabulary. You have to listen really well to learn. Then we copy the characters. I love the listening task. The animations give us clues to understanding what is being said. **William**

Year 6

We can speak and write some sentences. Learning French is good because we can communicate in France if we go on holiday. We can communicate and order food and drinks. We could get a job there when we are adults. I like the phrase and picture matching activities.

Bianca, Patrick, Jason, Lily and Thomas.
